

Rio Vista Foundation Offers Community Support

The Rio Vista Foundation (RVF) has been helping our community fund projects when no other sources were available since 1968, when it was first founded by the Rotary Club. It is dedicated to enhancing the quality of life for both current and future generations in the Rio Vista area by managing resources and providing guidance. Years ago, it helped provide home dialysis for RVHS Principal, Ron Chaddick. With the help of generous community members, RVF raised funds and built our town a state-of-the-art swimming pool when the old pool was no longer serviceable.
